Subject: West Lake Transition Paper- Updates Needed?
West Lake Landfill (Missouri) (Subsurface Smoldering Event).docx

Good Morning Mary,

Headquarters is asking us to make any updates to transition papers that might be needed due to recent activities related to the topic. I have attached the latest version of the West Lake paper. Could you please take a look at it and make any edits using track changes if you feel updates need to be made based on recent developments? If there are no changes needed, that is fine, too. We just want to make sure it is as current as possible when it goes to the Landing Team.

Please send any edits by Monday, if possible. Thanks for all of your work on this paper and have a great Thanksgiving holiday!

Katie
